

October 4, 2007

Dear Kevin,

I'm writing to express my appreciation for the outstanding service that you provided for the families at Dancing Moose. Digikids is a wonderful benefit for parents' peace of mind, and many parents have expressed appreciation for our making your service available to them. Not only is it an important protection for us as a preschool and childcare center, it is a critical precaution for parents to have comprehensive digitized data to help locate their child in a catastrophic situation.

We also appreciate the professional way in which you interacted with our parents. Your presentation to parents was informative and heightened their awareness of the importance of securing a digitized photo of their child. Having you attend our Back to School night was an ideal opportunity to make sure that parents could conveniently fill out the appropriate forms and have their child's picture taken. You made the process quick and convenient for all of us.

I am delighted that you made Digikids available to us. It is nice to know that all of the children at Dancing Moose have a state-of-the-art safety mechanism in place in case of a missing child emergency.

Sincerely,

Joyce Sibbett, Ph.D.

President

Dancing Moose Montessori School
