Dear Kent and Becky Couch,

For the past two years, we have been so pleased with your service and your product. Your warm, professional attitude and willingness to work with us is impressive and very much appreciated. Your product is outstanding in quality and affordability. Our parents and staff members have been very pleased with your company. Most important of all, our students benefit with protection and security your service and product offer. As a new grandparent, I can personally appreciate the comfort you offer families and can only hope our grandson will have an opportunity to benefit from DIGIKIDS! I would recommend your company to any principal or parent who cares about kids!

Sincerely,

**Vivian Johnson
Principal**
