October 31, 2005

To Whom It May Concern:

Jentry Poss and DIGIKIDS company did a wonderful job at Leon Valley Elementary in the fall of 2005. Although there was a concern that the new product was much more expensive than our former provider, the product proved to be worth the price. Mr. Poss organized the information letters effectively and efficiently processed the students with minimal loss of instructional time. I recommend that any school examine and utilize his digital identification CD.

Sincerely,

Scott G. McKenzie
Principal, Leon Valley Elementary
