To Whom It May Concern:

On Saturday, April 19, 2008, I co-sponsored a DigiKids Event, with Barbara Walker as the DigiKids representative. I was very impressed with the professionalism that Barbara conveyed during the event! We had close to 100 children ID'd, and throughout the event Barbara was calm and friendly, which greatly influenced how the children responded. The event was well organized – she was set up well before the time it started, which I appreciated. She also had requested information from me and the other co-sponsor ahead of time, so our information was included with the safety packet that she provided to parents. The woman who assisted her was also friendly – and very non-threatening to the children.

The location was at a Peter Piper's Pizza, which was wonderful. The staff and manager were accommodating and helpful. I am sure that since Barbara has DigiKids events there monthly, the events must always be well-organized, or they would not continue to "host" the event.

Parents were so grateful for the opportunity to have their children to be "ID'd". I hope that they never have to use the information – but IF they do, it will truly be a blessing – and perhaps a life-saver!

Thank you very much for providing such a valuable service! And thank you, Barbara, for allowing me to be a part of it!

In service,

Suzan
